

# Delavan

One Stop for all your Nozzle Requirements

---

## Better Filtration -- and repairable!

Delavan's new line filter offers sintered filtration with a replaceable element to keep it effective.

The filter is a heavy-duty version, offering more effective filtering than the old version.

- **Designed for burner applications of 2.00 GPH or lower, where nozzle plugging is more likely.**
- **The repair kit has elements and O-rings to repair three line filters, giving your repair technicians extra ammunition for those up-keep calls.**
- **Installs on the pressure side of the fuel pump with 1/8" NPT fittings.**
- **Flow goes either direction; installs conveniently.**
- **Replace or repair when pressure drop indicates a plugged filter element.**

Contact your Delavan representative for the new line filter and all the unbeatable oil burner nozzles and accessories.

**Line Filter Repair Kit repairs three line filters**

Available nationwide - U.S. and Canada. Distributed in Canada through Ontor Ltd., Toronto. If you would like more information on Delavan's outstanding oil burner nozzles, write Delavan Inc., US Hwy 301 S, Bamberg, SC 29003. Or call toll free: **1-800-982-6943**
